Dear Mike,

The Sellers of Global Aerosystems wish to express our thanks for all your efforts, dedication, tenacity, professionalism and abilities to evaluate, market and assist in the sale of our company. The Exvere talent and unique abilities to address, then align, the individual seller's needs with the buyer's expectations, we could not have realized the sale to Kaman Aerospace Group Inc.

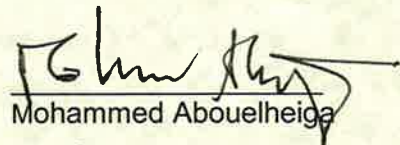

To say that Global Aerosystems LLC was a unique company, let alone a challenging client, goes without saying. That was clearly demonstrated by the first attempt to sell, when our company and our market entered into a short period of negative influences. Your steadfast belief in your abilities and approach were certainly the reasons we were able to close this sale within our desired time frame and best value amongst the final bidders.

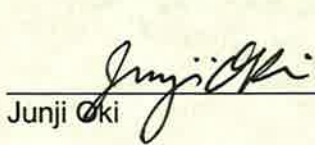

We are very appreciative that Exvere recognized our uniqueness but took the time and spent the effort to find us the best possible buyers that could offer great future opportunities for our highly valued employees. Having the ability to vet and evaluate over half a dozen serious buyers, allowed us sellers to look beyond the immediate financial rewards and to focus on how the new entity might offer significant value that could be immediately leveraged by the buyer.

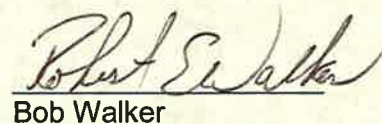

Of course it was your experience, guidance and understanding, of both the seller's and buyer's needs, that allowed us sellers to realize an excellent return on our investment, both in cash at closing and in deferred payments in the buyout terms.

It's never easy to assemble six owners, let alone aerospace engineers of uniquely different personalities, and nurture them through to agreement on all of the terms and conditions of a sale. But your patience and unfettered willingness to walk us through each and every issue or point of contention, was clearly the reason we were able to get this transaction completed.

We recommend Exvere to all those seeking your services and consul. You did a wonderful job for us and we thank the entire Exvere team for their hard work and successful efforts.
