**Exvere Advises on Acquisition of Dynamic Fabricators**

Seattle, WA – Exvere, Inc. announced the acquisition by Amtech Corporation, of Dynamic Fabricators, Inc., Rathdrum, ID. Amtech, a leading designer and manufacturer of custom molded fiberglass and vacuum formed products, is owned by Blackford Capital, LLC, a private equity firm based in Los Angeles, California, and Dick Clarke, its founder. Exvere represented Amtech in the transaction.

Dynamic Fabricators is one of the world's premier manufacturers of cooling tower components. Dynamic Fabricators also has a fabrication and service facility located near Houston, Texas. Acquired in 2006 by Wade Wolcott, Dynamic felt the need for a financial partner to assist the company in capitalizing on a variety of expansion opportunities. The acquisition of Dynamic Fabricators solidifies Amtech as a leading manufacturer of custom fiberglass products, which also include commercial, industrial, and military applications. Mr. Wolcott comments, "The Amtech acquisition will allow the company the structure and flexibility it needs to continue to take advantage of its growth potential."

Martin Stein, Managing Director of Blackford Capital, remarks, "Dynamic's substantial operating expertise and success in the cooling tower segment will allow Amtech to expand on its significant opportunities and position the combined company for long-term success."

Michael Brustkern, Chief Executive of Exvere, comments, "This is a classic example of a private equity investor pursuing a consolidation opportunity by building on a successful platform. Both parties are well-served."
